

Digital crane weighers are robust, compact devices for load weighing. Delivery includes a remote control with indication. The measuring accuracy is 0.1% of the nominal load. Also available with data storage device for the further processing of measured data on a PC. The 12-tonne crane weighers can also be networked - up to a maximum of four measuring devices. This enables the control of measured values and the addition of other measured values. The data can be transferred to a PC for further processing via a USB port. The measured values can be displayed both numerically and in a graph.

Measuring range: 12 t max.

Digital crane weighers				
Measuring range in t	Smallest measuring increment in kg	Weight in kg	Protection type	
1	0,5	3	IP 54	
2	1	3,6	IP 54	
3.2	1	5,9	IP 54	
5	1	7,3	IP 54	
8	2	10,5	IP 54	
12	5	19,8	IP 54	

Dimensions digital crane weighers					
Measuring range in t	D	E	I	K	L
1	362	20	60	110	13
2	385	25	60	110	16
3.2	455	32	75	135	18
5	528	40	90	160	22
8	602	49	100	180	26
