

Hydraulic wire rope hoists can be used with any length of wire rope. The motorised wire rope is powerful and simple to use. It permits load positioning with millimetre precision. The carrying capacity of the hoist is easy to increase using sheave blocks.

Load capacity 1.6 t and 3.2 t

We can also supply a 380 V electrical hydraulic pump on request.

A range of different wire rope lengths are also available and can be ordered separately.

Hydraulic wire rope hoists			
Load capacity in t	Max. working speed lifting-lowering m/min	Wire rope diameter in mm	Weight without wire rope in kg
1.6	2 - 2.4	11.5	29
3.2	0.5 - 1.0	16	52
3.2	0.3 - 1.2	16.2	30.9

Hydraulic aggregate			
Output	Capacity	Max. pressure	Weight with oil
13 l / min	3 kW	130 bar	61 kg
13 l / min	3 kW	130 bar	61 kg
2 x 8.4 l / min	2.9 kW	160 bar	60 kg

Dimensions hydraulic aggregate			
Load capacity in t	A	B	C
1.6	790	160	400
3.2	1,070	205	430
3.2	1,110	150	400
Dimensions in mm
