

Plate lifting clamps are primarily used to transport sheet metal and steel plates and are also able to rotate the plates through 180°. Horizontal and vertical versions are available.

Load capacity: 1 to 12 t

Plate lifting clamps horizontal		
Load capacity in t	Max. clamping width in mm	Tare weight in kg
1	35	3
2	60	9
3	60	10
4	60	15
6	60	15

Dimensions plate lifting clamps horizontal		
Load capacity in t	B	C
1	140	193
2	180	290
3	180	293
4	220	310
6	220	310

Dimensions in mm

Plate lifting clamps vertical		
Load capacity in t	Max. clamping width in mm	Tare weight in kg
1	22	3.5
2	30	5.5
3	35	9
5	50	16.5
12	52	42

Dimensions plate lifting clamps vertical		
Load capacity in t	B	C
1	125	260
2	155	300
3	175	360
5	224	410
12	295	617

Dimensions in mm
