

TRANSPORT | *Transport trolleys (plastic)*

Transport trolleys are suitable for the in-house transport of heavy loads. The plastic rollers prevent damage to the flooring during transport. Version with turntable also available for easy steering. The distance inbetween the cassettes is adjustable.

Load capacity 3 to 40 t

Higher load capacities available on request.

Transport trolleys (plastic)

Load capacity in t	Fixed or with steering	Turntable surface area in mm	Surface area per cassette in mm	Installation height in mm	Dimensions of cassette in mm	Weight in kg	Length of steering rod with drawbar eye in mm
3	With steering	ø 150		110		12	990
3	Fixed		120 x 80	110	190 x 125	11	
6	With steering	ø 150		110		33	1,120
6	Fixed		175 x 170	110	325 x 200	25	
9	With steering	ø 170		110		54	1,120
9	Fixed		175 x 170	110	325 x 390	32	
12	With steering	ø 170		110		64	1,120
12	Fixed		175 x 170	110	325 x 390	35	
30	With steering	ø 250		180		214	No data
30	Fixed		288 x 300	180	288 x 300	128	
40	With steering	ø 250		180		227	No data
